How Construction Firms Can Prepare for a Second Wave of COVID-19

Although many coronavirus-related shutdown and stay-at-home orders are in still in place, the U.S. is on the road to loosening restrictions to keep the outbreak at bay. Since several areas of construction were considered essential, the industry has a leg up on others that have been completely shut down since the pandemic began.

But even as the country's economy slowly comes back to life, top medical experts have warned that there could be a second wave of COVID-19 cases once

more people come into contact with each other and in the fall when colder weather arrives and the regular flu season begins again.

So, how should contractors prepare for a potential second round of COVID-19?
